SUBJECT	MTM	TEM	ETM	AVG	LET	COMMENT	TEACHER
Computer Minor	52	70	75	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Lillian's work this term has fluctuated, and her quiz scores were particularly low. She missed a few classes which contributed to the problem. Another challenge was her focus in class, which fluctuates. Sometimes she is distracted by her machine, at other times she is a welcome addition to class discussion. Overall, good effort this year Lilian! Have a great break!	Ms.Lyla
Economics	91	67	81	83	B	Lilian is hardworking and devoted student in econommics who likes participating and asking questions in classs. Her performance has been improving but she still needs put in more effort for a better grade.	Ms.Patience
English	90	89	90	80	A	In English class, where most of the coverage this year was Literature, Lillian has been an excellent student, both in reading, interpretation and writing. Your attention in class is a great instrument in other classes as well. Keep it up Lillian through out your studies!	Mr.Paulin
Entrep	96	92	94	90	A	Lillian's performance is promising. Her active participation in class discussions if maintained will enable her to maintain this promising performance.	Mr.Richard
Geography	96	96	96	93	A	Lilian is credited for her active participation in class presentations and research. Her activeness has enabled her to have such results. Continue consulting your peers and teacher.	Mr.Richard
General Pa-per	94	93	94	91	A	Lilian has a good score in G.p but she has potentials to score more. Participation in class should be her target next year..	Ms.Penelope
Math	35	60	50	72	E	Lilian is a courageous and social student. After the mid term results, i have witnessed a trememdous improvement in Lilian's concentration and focus in class. She has worked tirelessly and vigorously. Am sure, she can get better results than this if she maintains her concentration. She will do much better come next year.	Mr.Gonza

SUBJECT	MTM	TEM	ETM	AVG	LET	COMMENT	TEACHER
Chemistry	79	70	80	83	B	Celine's participation and teacher consultations in class has been commendable this term, a reason her scores have steadily improved. Please, don't relax, keep it up.	Ms.Justine
Biology	92	85	89	82	B	This is a good score; your presentation of work has a characteristic of scientific writing, an important component that is going to be needed through your study throughout. Question interpretation requires some slight adjustment and then you will have all it takes to continue to excel. We expect much more better things come in the next year, if much attention is paid to the above concern.	Ms.Justine
Computer Minor	62	69	75	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Celine is a bright young woman, but her work fluctuates. Her final and last quiz score were very low for this term. That said her other work was OK and in general Celine is a conscientious and engaged student. Celine, it's been a pleasure teaching you this year. I hope you continue to learn more about technology. Have a great break!	Ms.Lyla
English	96	87	93	80	A	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Celine's love of reading helped her in the novel analysis this term. She made astute contributions in class and has a positive attitude. Given her strengths, she could have performed better on the final exam.	Ms.Jennie
Entrep	87	93	91	90	A	Celine's performance is promising and she is capable of maintaining it. However, she should double her efforts in class discussions and presentations.	Mr.Alain
General Paper	92	94	93	91	A	Celine is a hardworking, friendly, consistent active student in class. She has the ability to do much better than this if she takes more time to think through what she is doing.	Ms.Penelope
Physics	47	61	70	83	C	Celine has really improved in Physics this term. She is working harder and smarter, and she has improved her understanding of conceptual topics and her problem solving skills. I hope she continues with this focus and keeps looking for ways to improve her study habits and performance. Keep up the great work!	Mr.John

Computer Major	70	71	50	64	E	Sandrah's performance does not reflect what she is able to do. She needs to concentrate more and do more exercises in computer programming in addition to consulting teachers.	Mr.Wycliffe
Computer Minor	95	68	83	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Sandra declined a little at the end of this year. Overall she has been a very hard working and involved student; she is a leader socially and academically in her class. Despite her low final exam mark, Sandra has been a great addition this year to her computer minor class. Sandra, good work and best of luck with your computer major studies! It's so exciting that a strong young woman such as yourself is studying computer science.	Ms.Lyla
Economics	94	84	90	83	A	Sandra is an excellent student in economics, she is hard working, committed and helpful to peers. she likes participating and asking questions in class. she should continue with that spirit.	Ms.Patience
English	89	90	90	80	A	In English class, where most of the coverage this year was Literature, Sandra has been an excellent student, both in reading, interpretation and writing. Your English skills are great instruments in other classes, Sandra. Keep it up through out your studies!	Mr.Paulin
Entrep	93	97	95	90	A	Sandra is expected to maintain this good performance. She has contributed a lot in assisting fellow weak learners in her class. Try to maintain your good performance.	Mr.Richard
General Paper	92	93	93	91	A	Sandra's good performance is attributed to her active participation in class discussions. She is a student who approaches both the teacher and her fellow learners wherever she finds a challenge. She is very organized and her work is always neat with a very good handwriting. She is encouraged to keep it up.	Ms.Penelope
Math	43	83	70	72	C	Sandra is a tough, focused and talented student. She uses her time optimally and considers asking from her peers and also reading with them too. I have observed Sandra put more than 75% of her time in mathematics in this last half of the term. This typically explains the good result obtained in end of term examination. She needs to maintain this come next year. Very good work.	Mr.Gonza

Biology	83	59	74	80	C	Jeanne had a term that was seen to have most days off the faculty. As sickness continues to be the main setback in her pursuit of a better education, she continues to work so had every time she comes from home. Her hard working amid pressure has shown an ability to cope with the new challenges of the syllabus. Writing which was the main focus this term has improved. Commitment to work slowly gives a hope that if you continue to seek guidance, a step by step performance should continue to show up. Special credit also goes with the way she has been able to relate practical work in foods with body activities. Keep it up.	Mr. Benson
Chemistry	79	54	78	81	C	Jeanne would have performed better in this term, if her health condition was stable and attended classes constantly. The few times she attended organic chemistry lessons, she demonstrated clear comprehension of the mechanism which offered challenge to other students.	Mr. Allan
English	74	79	78	81	C	This term in English we read the dystopian YA novel, Uglies. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Jeanne has been making improvements this term, and her final essay really shows an increase in her English proficiency. She did fairly well on the final exam, but needs more reading practice.	Ms. Jennie
Entrep	60	74	75	84	C	Jeanne, she is an active student in class although things are not working out well from that side. I encourage her to do more practice especially in accounting numbers so as to be able to meet with the standards of S.6 next year. I wish her a merry Christmas and a happy New Year.	Mr. Samuel
General Paper	88	98	93	91	A	Jeanne is a good student and her performance is promising, she is hard working and she likes consulting her peers and she should continue with that spirit for better grades	Ms. Penelope
Physics	80	72	89	85	B	Jeanne should use this holiday to cover well senior four work most especially optics, electricity and electrostatic and involve in group discussions and get ready for s6	Mr. Erisa

Biology	81	80	87	80	B	Victoire had a great term that was seen to feature areas where she did so much to come to this level; assignment writing in the most scientifically accepted way, scheduling of the work given at the same time, and a constant consultation while working on her assignment. The presentation of answers with logic has greatly improved and she is advised to keep this up as she enters the final year of her high school. The scores will go up with time as she enters her final year in high school.	Mr.Benson
Chemistry	82	71	85	81	B	Irrespective of meeting new and challenging topic - organic chemistry with mechanisms to comprehend, Victoire's overall final scores have been maintained constant, thanks to her contributions in class.	Mr.Allan
English	95	93	96	81	A	This term in English we read Ugliers. Students completed a journal project, two group presentations and a final essay. Vicky wrote a very thought-provoking and thorough essay. She has been a delight to have in class, and can always be relied upon to be intellectually engaged. I think she will do well on the TOEFL and SAT next year.	Ms.Jennie
Entrep	97	81	91	84	A	Victorie is an excellent student in entrepreneurship, she is hard working, committed and likes participating and helping others. And this has greatly impacted on her performance and her grades are constantly improving. She should not relax.	Ms.Patience

English	92	91	91	80	A	This year, in English class, where most of the coverage was Literature, Belise has been an excellent student, both in reading, literary interpretation and writing. Your English skills are great instruments in other classes as well, Belise. Keep it up through out your studies!	Mr.Paulin
Entrep	94	96	95	90	A	Belise, she is an active student in class and also cooperative outside class. she has always finished her assignments on time and helped her colleagues to understand different concepts. I encourage her to continue helping others, it will help her perfect and master the concepts which will eventually her to improve on her performance.	Mr.Samuel
General Pa-per	94	99	97	91	A	Belise's performance is tremendous and this has been due to her u equalled consistent participation in classroom activities like debates and other discussions.I am proud of her in G.P.She is a good debator,very disciplined and very cooperative.She is encouraged to maintain this spirit and also radiate it to her class mates so that they can see it in her.	Ms.Penelope
Math	80	81	80	72	B	Belise has been a consistent mathematics student throughout the year. I appreciate her active participation and she adds to the light hearted dynamic of the class. I encourage Belise to continue studying over the Holiday to keep her skills sharp for next year.	Ms.Samantha
Physics	76	57	80	83	B	Belise is a great student, she always asks good questions, she is attentive in class, and she works well with her classmates. She understands Physics very well, and she has good problem solving ability. I know she would like to improve her performance on tests, and I believe she will as she keeps practicing exercises, and striving to understand the conceptual part of Physics.	Mr.John

Chemistry	68	32	66	81	D	Jeanne has been challenged by mechanism in organic chemistry which not only lowered her self-esteem but even highly depreciated her exam scores. I do advise her to devote time on that topic specifically during the holiday with extra help from her sister Merveille.	Mr.Allan
English	76	65	75	81	C	This term in English we read the dystopian YA novel, Ugliers. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Jeanne's writing has improved this term, although she still struggles with creating a thesis statement and supporting her argument. She is very quiet in class.	Ms.Jennie
Entrep	77	61	67	84	D	In this term we focused more on final accounts. This topic in accounting includes a lot of Math. Jeanne's performance dropped this term. she seemed to be overwhelmed. Whatever might be happening with her, she should continue to work hard and efficiently next year as she moves on to more challenging classes and not to despair.	Mr.Alain
General Pa- per	70	80	75	91	C	Jeanne is a highly self-motivated G.P and she is always determined student and doesn't easily give up. She is very hard working and quite brilliant .But if she can improve on her class participation, she can improve on her grades. She will make it.	Ms.Penelope
Math	50	53	54	63	E	Jeanne is a kind and social student. She is motivated though sometimes she gets discouraged when content becomes a little bit confusing. She has good reasoning skills. She needs to do more revision in Binomial theorem and Probability. Jeanne has the potential to do better. Help her organize her holidays well.	Mr.Gonza
Physics	64	20	69	85	D	Jeanne has put forth a consistent effort in Physics this term. She has a strong ability in problem solving and understands physical concepts. I encourage her to ask more questions, and engage in more discussion with her classmates.	Mr. John

Computer Minor	90	64	82	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Chelsea's work on projects this term was very strong, but she struggled with the exam. In class she often seemed distracted by her computer, which was a pity because I believe when she is involved she adds a lot to the discussion. With a little more organization and structured work ethic, Chelsea has all the makings to be successful. Chelsea, it was great teaching you this year; have a lovely winter break!	Ms.Lyla
Economics	87	64	78	83	C	Hilda is a promising student in economics, she is hardworking and committed to her studies but her performance is still not the best because she jointed the subject late. i believe with constant revision and consultations with her peers and teachers should be in position to improve. Math	46	80	80	72	B	Jeanette is a confident, focused and naturally bright student. She is sociable and kind. Her performance in class after mid term examinations was promising. However, a lot of time during the beginning of term was wasted. This led to a decrease in her confidence and participation. She needs to get back to who she is and she will do better than this.	Mr.Gonza
Physics	94	80	91	83	A	Jeanette is a very strong Physics student that consistently performs at a high level on tests and exams. She understands concepts well, and has a very strong ability to solve multi-step Physics problems. I encourage her to participate in class discussion, as her classmates would benefit from her explanation.	Mr.John

Chemistry	95	70	90	83	A	Diana's explanations are thorough and well thought of. It's not a surprise that she obtained A. However, emphasize much on question selection to improve on your exam scores.	Ms.Justine
Biology	87	67	77	82	C	This is a low score. A lot is need showing missing gaps in your presentation of work during test taking. Therefore, intense revision with guidance is needed if you are to show a difference. It is our request therefore, that during holidays, take some time off to revisit subject content as you enter senior five.	Ms.Justine
Computer Minor	85	69	80	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Diane has been doing great work this term, but struggled on the final cumulative exam. This shouldn't subtract from her steady performance on quizzes and assignments. In class it would be great to hear a little more from her. Overall, great work this year. Have a relaxing and productive holiday Diane!	Ms.Lyla
English	95	89	92	80	A	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Diane's essay showed an increasingly strong command of English and her dedication to doing her work well. She makes astute observations in class and keeps up with discussions well.	Ms.Jennie
Entrep	89	99	94	90	A	Diane's performance is promising. Her active participation in class discussions if maintained will enable her to maintain this promising performance.	Mr.Alain
General Pa-per	82	88	85	91	B	Diane is very attentive in class, however she needs to be active in class by participating in classroom discussions to build confidence and team work. Otherwise she can perform better than this.	Ms.Penelope
Physics	68	76	81	83	B	Diane has really improved in Physics this term. Her work shows she has attention to details, she is an innovative and logical problem solver, and can explain her conceptual understanding clearly. Economics	86	35	66	81	D	Immaculee's performance is inconsistent but she has shown some decline in her grades but she still needs to learn how to participate in class and consult her peers and teacher because she lacks knowledge of major concepts in economics. She should put more effort in her work for better grades.	Ms.Patience
English	59	68	55	81	E	This term in English we read the dystopian YA novel, Uglies. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Immaculee is very quiet in class and rarely asks questions. Her contribution to her group presentation was not apparent, as she did not get up and present with the class.	Ms.Jennie
Entrep	61	77	71	84	C	In this term we focused more on final accounts. This topic in accounting includes a lot of Math. Immaculee's performance dropped this term. She was very social with other students and seemed to work hard. She should continue to work hard and efficiently next year as she moves on, to more challenging classes.	Mr.Alain
Geography	79	90	83	92	B	Immaculate has the potential of maintaining this performance and doing better than this. She needs to consult her teachers and fellow students so that she can be assisted where need be.	Mr.Richard
General Paper	87	100	95	91	A	This mark is a true reflection of Immaculee's performance this term. She is a well disciplined and responsible student,. She has a very good positive attitude . Just keep the candle burning please. I am impressed by your performance	Ms.Penelope
Math	30	24	22	63	F	Immaculee is a humble, passive and very quiet student in my class. She has a good attitude but her level of practice is still low and yet she really has alot to do. Biology	76	62	71	80	C	This is an average score. Even when the score shows little difference, much of the focus this term has been in areas of extended essay writing in biology, assignment writing and a special approach to question interpretation and presentation of relevant ideas of the subject in the most logical manner; an area she has shown great growth. she should base on this to have a wonderful next year.	Mr.Benson
Chemistry	78	60	80	81	B	There has been a general improvement in Sylvia's term marks compared to other terms, irrespective of low exam scores. Thanks to the efforts she encodes to the group work and class exercises. Though, she needs to put great emphasis on her individual work so as exam marks can be raised.	Mr.Allan
English	87	80	85	81	B	This term in English we read the dystopian YA novel, Ugliers. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Sylvia's essay and final exam showed her strong reading and writing ability. I think she can try for the TOEFL and SAT next year if she wants.	Ms.Jennie
Entrep	94	67	86	84	B	Syllvia, she is such a wonderful jolly girl, very active in class, does all her assignments on time, i have never caught her off-side and this explains why she is performing well. i encourage her to continue being responsible and committed to her studies she will make it. Computer Major	89	90	95	80	A	Merci is such a sharp girl. She absorbs information like a sponge, but also processes and makes sense of complex problems. She has been one of the leaders in class this term. More than anything, the success of her peers is due to her work to not only perfect her own knowledge, but to help others in the class learn the concepts. In class, she is always asking insightful questions, which go beyond the basics and question the reason why we do certain things in computer science. I have no doubt that Merci will thrive wherever she goes and whatever she does; I certainly hope it's something to do with technology. Merci, it has been a pleasure to have had you as a student these past two years. I cannot wait to see all the great things you go on to do!	Ms.Lyla
English	94	92	93	81	A	This term in English we Uglies. Students completed a journal project, two group presentations and a final essay. Merci wrote a very thoughtful and analytical essay, incorporating a number of sources. Her performance in English overall has been excellent. She should be able to excel on the TOEFL and SAT next year.	Ms.Jennie
Entrep	97	86	92	84	A	Merci is an excellent student in entrepreneurship; she is hard working, active in class and likes helping her peers. She has the ability to perform better than this. She should continue with that spirit.	Ms.Patience
General Paper	97	100	99	91	A	Merci i am proud of you in the G.P She wrote an excellent exam, . She has excellent participatory skills in class especially in debates . With even more attention to details she can be among the best GP students!	Ms.Penelope
Math	80	85	76	63	C	Merci is a talented, motivated, organized and highly smart girl. Her incredibly stupendous resoning skills will move her to greater heights. She has the ability to reason, explain, write and synthesize mathematical data way above average. Her talk and explanation is so very mature and elaborate even for her peers. This mark is trully not an exact representation of Marie Merci. She can do far better than this.	Mr.Gonza

Chemistry	77	80	81	83	B	Ntaganda's marks have improved consistently since the start of the term. Thanks to her teacher and peer consultations.	Ms.Justine
Biology	92	84	88	82	B	This is a good score; your presentation of work has a characteristic of scientific writing, an important component that is going to be needed through your study throughout. Question interpretation requires some slight adjustment and then you will have all it takes to continue to excel. We expect much more better things come in the next year.	Ms.Justine
Computer Minor	86	78	85	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Lys is a determined and bright young woman. Her work this term and throughout the year has been excellent. Lys, thank you for all your hard work in Computer Minor; I hope you are proud of the skills and knowledge you've gained this term. Have a lovely winter break; you deserve it!	Ms.Lyla
English	88	80	91	80	A	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Lys is such a delight to have in class. She gives great insight in class discussions, and always contributes well supported and analyzed opinions. She is able to think independently and take courage in her sense of self. Lys should learn from the mistakes she made on the exam, and she will be able to do better next time.	Ms.Jennie
Entrep	88	100	94	90	A	Keza has shown continuous improvement in the tests and the actual class work. She is expected to maintain her positive attitude towards studies and her activeness in class activities.	Mr.Alain
General Paper	92	95	94	91	A	Lys is a quick learner and her questions in class always trigger the learning capabilities and often set the pace to the learners. Keep it up. However, she needs to be thorough and intensify on the explanations while attempting exam questions.	Ms.Penelope
Physics	88	59	84	83	B	Lys is a very hard working, focused Physics student. She has performed very well in tests, group work, and practical work. SUBJECT	MTM	TEM	ETM	AVG	LET	COMMENT	TEACHER
Computer Minor	76	28	56	81	E	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Mireille is a sweet young woman, but she needs to slow down and do her work and studying more carefully. For example, her idea for her newspaper article was great (to interview various people from GGAST and write an article about the school), but its' execution was undermined by the fact that she got the school's core values and the names of the founders wrong. Her final exam score was lower than girls with far lower English fluency than her. Mireille, it was nice to get to know you this term. Remember that you will get as much out of your experience here as you put in to it. I know you will do great things with a little more effort. Have a refreshing holiday break!	Ms.Lyla
English	60	39	53	80	E	Though Mireille tried her best in English class, her improvement was hard to achieve. Her writing skill, vocabulary use and literary interpretation of texts is very low. She needs consistent particular coaching in English and she should start these holidays.	Mr.Paulin
Entrep	82	52	75	90	C	Ange, she has steadily improved although this is still below my expectation for i know she can perform better than this if she develop a positive attitude towards you books, increase on the time for your academics, and self esteem. i encourage her to do more practice at home to master the concepts	Mr.Samuel
Geography	79	68	74	93	C	Kunda is encouraged to consult her fellow students and be more active in class discussions. If she would consult her teacher, the performance would be better than this.	Mr.Richard
General Paper	88	49	70	91	C	Unfortunately Mireille misread one of the questions on the exam and that hurt her end of term mark. She needs to settle down and concentrate on her studies. She should improve on her handwriting as well so that her work can easily be read should participate more in class discussions, for better grades next year.	Ms.Penelope
Math	53	62	57	72	E	Ange Mireille seemed to struggle throughout this year. I am not sure if she wasn't interested in the material or if she needs additional support and help. If possible Ange should work with a tutor or her peers to help her catch up on any topics that she struggled with as it will be important to master S4 material before entering S5.	Ms.Samantha
Physics	60	36	66	83	D	Mireille has had some difficulty with topics covered this term. She must try to ask more questions in class, as well as outside class, and practice problems regularly. With improved habits and persistence, I am confident she will improve her marks.	Mr.John

Computer Minor	46	63	72	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Kevine is a hard-working student, but sometimes gets confused about directions or does not read carefully. When she takes a little more time, the results is great; for example her group's final Excel project on Rwandan singers was excellent. Kevine, overall, good work this year. It has been a pleasure having you in class and I hope you continue to use and create with technology. Have a great holiday break!	Ms.Lyla
English	81	80	81	80	B	Kevine is one of the best English students for many reasons; from her participation, self-confidence and public speaking. However, Kevine, you should have scored higher than this. You need to increase your study time. Next year, find new strategies to excel on exams that require critical thinking.	Mr.Paulin
Entrep	73	92	90	90	A	Kevine has the potential of maintaining this performance and even better than this. She is active in class and expected to maintain her good performance.	Mr.Richard
General Pa-per	92	90	91	91	A	Kevine is one of the hardest working students in the class. She is a class representative and she contributes a lot and her continuous assistance offered to the learners has assisted her to master some of concepts. Maintain this performance	Ms.Penelope
Math	47	84	60	72	D	Kevine is a superlative, brilliant and active student in my class. Her organizational skills remain high above standard and excellent. Her work in class is astonishing and encouraging. Kevine's performance this term comes as shock to me. I think this was due to some loss of time at the real beginning of the term. I know, she has that latent ability to perform far beyond this. She needs to focus more.	Mr.Gonza
Physics	88	65	84	83	B	Kevine is a leader in her class, and she can be one of the strongest leaders in the school. Biology	87	81	89	80	B	Zula has gone through a wonderful term that has been characterized by a highly improved format of making research, report writing and assignment writing. Even when her scores show a slight increase, much more has been realized in the areas mentioned above without forgetting a well thanked skill she has shown in question interpretation that shall act as great foundation for the final year as well as preparation for college. I hope she maintains the pace at which she is.	Mr.Benson
Chemistry	74	76	84	81	B	Zula performs well when given ample time to concentrate and comprehend the content, a reason she normally finds new topic challenging to her at the start. E.g, last term, mole concept was a challenge but now, its organic chemistry. Please, I encourage her to utilize the holiday for enhancing mechanism comprehension once and far all.	Mr.Allan
English	97	90	96	81	A	This term in English we read the dystopian YA novel, Uglies. Students completed a journal project, two group presentations and a final essay. Zula is such a delight to have in class. She is an excellent contributor to class discussions, and her group's presentation showed excellent understanding of the material and engagement with the subject matter. She clearly puts a lot of effort into her writing with clear and insightful results.	Ms.Jennie
Entrep	97	84	92	84	A	Zula is an excellent student in entrepreneurship, she is hard-working, devoted and she likes consulting with her peers and teachers especially where she has not understood. she is good in participation and her grades have been consistently improving. I have no doubt she will excel	Ms.Patience
General Paper	87	100	94	91	A	Zula is a joy to have in th G.p class.She has excellent analytical skills and she answered the exam perfectly well.She read the passage with understanding whichenabled her to score an excellent mark.She is encouraged to maintain this skill.	Ms.Penelope
Math	60	67	66	63	D	Zula is a steady, obedient and disciplined student. She is such a blessing to have in my class. Her attitude towards learning is such an inspiration to many. I have seen Zula come forth for consultation and any academic related venture. I am sure that if Zula overcomes her small problem in Analysis and probability, she will do better than this. This is way too low of what i expect out of Zula.	Mr.Gonza

Chemistry	82	78	84	83	B	Besta would have performed better if only she can consistently use specific chemical terms (chemical language) which lacked in her exam responses. This can be achieved by her doing constantly going through a number of exercises.	Ms.Justine
Biology	87	60	74	82	C	This is a low score. A lot is need showing missing gaps in your presentation of work during test taking. Therefore, intense revision with guidance is needed if you are to show a difference. It is our request therefore, that during holidays, take some time off to revisit subject content as you enter senior five.	Ms.Justine
Computer Minor	61	70	76	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Besta has been working hard this year. Sometimes in class, she can become distracted by her computer and miss instructions or information. In general her work has been good quality and she's put forth a good effort. Besta, it was a pleasure to have you in class this year. I hope you continue to use the skills gained in Computer Minor in your other subject. Have a great break!	Ms.Lyla
English	91	84	89	80	B	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Besta has maintained her performance in English class, but isn't reaching for the best. She needs to be more thorough in following assignments and giving full and complete answers.	Ms.Jennie
Entrep	99	96	97	90	A	Besta is expected to maintain this good performance. She has contributed a lot in assisting fellow weak learners in her class. Try to maintain your good performance.	Mr.Alain
General Paper	94	91	93	91	A	Besta is a focused student and quiet. She should be able to do better with her grade if she were to seek help and ask questions inside and outside the classroom for clarification. She should be able to do better.	Ms.Penelope
Physics	83	74	86	83	B	Besta is an excellent Physics student, she works hard and is committed to mastering all the content in the Physics course. Computer Major	75	89	80	64	B	Racheal reserved but exceptionally intelligent and i know you can do better than this. This means that you need to do more practice in programming and also consult the teacher. You also need to participate more in class and be more confident.	Mr.Wycliffe
Computer Minor	58	90	80	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Rachel did OK on the practical work this term; where she really showed her efforts was the exam. She should be SO proud of her display of computer science knowledge on the test, as it was one of the highest marks in the class. Her success on the final exam, highlights her determined efforts through out the year. Rachel, it has been such a pleasure teaching you this year. Please stick with computer science, you have a talent!	Ms.Lyla
English	78	84	82	80	B	Rachel has demonstrated great interest and need for improvement in English class. Though she did not score an "A" she did her best to improve in reading-comprehension, literary interpretation and in writing. Keep it up Rachel and aim higher in 2014.	Mr.Paulin
Entrep	90	83	90	90	A	Rachel, she is a disciplined student although she is still shy in class. i encourage her to be more active in class in order to grasp information at first hand. happy holidays.	Mr.Samuel
General Paper	92	84	88	91	B	Rachel has lost some confidence, and this is unfortunate as she is a good student and a good thinker.She wrote a fairly good exam. I've encouraged her to speak up in class more as that will help her organize her points, and her English speaking skills,confidence and writing will improve from that.	Ms.Penelope
Math	96	89	93	72	A	Rachel is such a bright young woman with an impressive talent for mathematics. Rachel was always attentive and participated regularly. In addition I am so grateful for the time that Rachel spent with her peers, helping them to understand topics that seemed confusing for them. Keep up the good work, dear girl!	Ms.Samantha
Physics	76	82	86	83	B	Rachel is a bright, hard working Physics student. She is always focused in class and trying her best to learn and understand the topics. She asks great questions and she is always willing to explain a problem or conceptual topic for her classmates. On tests, she is making some small mistakes, but I believe this will improve with time, as she practices more. Overall, she is doing great work and is a positive impact in class.	Mr.John

Math	62	80	80	63	B	Mathilde is a tough, vibrant and active student in my class. She has the ability to discuss strongly in small groups and her understanding ability is pretty high. The rate at which Mathilde understands mathematics concepts makes her lie in the top decile in my class. Her dedication to mathematics is an inspiration to many. I believe, Mathilde has even greater ability to better in the following terms.	Mr.Gonza
Physics	89	35	82	85	B	It is a pleasure to have such a hard-working, conscientious student like Mathilde in class. She is attentive, enthusiastic, focused, and works well with others. Her marks have been excellent and reflect the effort she puts into her academics.	Mr. John

Chemistry	80	74	81	82	B	Grace's critical and analytical thinking proved vital to her excellence this term. She has often challenged the class with those skills. However, she mis-fired interpretation of a question in the final exam which lowered her final scores.	Ms.Justine
Computer Minor	80	62	78	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Grace has been an absolute pleasure to teach; she's motivated, hard working, confident and intelligent. Her quiz and exam marks are lower than her project marks; I believe this is a problem related to English fluency. She should be commended for the hard work she has been displaying all year. Grace, thank you for your efforts! I hope you will continue studying and practising using computers at GGAST. Have a great break!	Ms.Lyla
English	83	70	77	80	C	Progressively, Grace has shown improvement and interest in English. Her attention in class makes her a great component in English class. However Grace, your participation is still very low, that is why there is still big room for improvement next year.	Mr.Paulin
Entrep	94	97	98	90	A	Grace's performance is encouraging; her activeness in class and steady progress that she has registered this term reflects her capabilities. She can do better than this.	Mr.Richard
General Pa-per	92	94	93	91	A	Grace is active in class and very inquisitive to learn new things. However, she is expected to perform better than this, and from her class work and presentation Grace has the ability to do better.	Ms.Penelope
Math	47	78	70	72	C	Grace is a unique, social, active and able student. She likes studying and she likes mathematics. Her concentration has been up this term and she has solved quite a number of problems both with her friends and with me. The result she obtained is in no way equal to the effort she put in. Am very sure, come next year, Grace will attain her real position. She has the capacity to do much more.	Mr.Gonza
Physics	82	82	88	83	B	Grace is an amazing Physics student! Her work shows she has attention to details, she is an innovative and logical problem solver, and can explain her conceptual understanding clearly. I think she will perform even better on tests and exams as time goes on. I encourage her to ask more questions in class and participate more because it would benefit her classmates.	Mr. John

Chemistry	94	83	94	82	A	Angella's critical and analytical thinking proved vital to her excellence this term. She has often challenged the class with those skills. However, her explanations lack specific chemical words and she is too wordy while answering which makes her to meander from the main points. I do encourage her to always be precise and direct to the point.	Ms. Justine
Computer Minor	82	67	75	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Angella's practical projects have been good, but she struggled with the quizzes and exams. In general Angella seems focused, but she rarely speaks in class or seeks help for confusing topics. Angella, I hope you continue using computers at GGAST to their full potential. Have a great holiday break!	Ms. Lyla
English	80	68	76	80	C	Progressively, Angella has shown improvement and interest in English. Her attention in class makes her a great component in English class. However Angella, your participation is still very low, that is why there is still big room for improvement next year.	Mr. Paulin
Entrep	98	99	99	90	A	Angella has exhibited active participation in almost all the class activities, discussions and presentations. She is encouraged to maintain this performance.	Mr. Richard
General Paper	94	83	90	91	A	Angella is a quiet but disciplined student. She is encouraged to participate in class activities to improve her grades.	Ms. Penelope
Math	38	70	60	72	D	Angella is a humble, kind and promising student. She is confident and she can express herself easily. She needs to apply this same skill and use it to ask questions in class and also her peers. This result, though it is still low, I am sure Angella is capable of doing something better than this in the next terms. She has the capacity to do better.	Mr. Gonza
Physics	92	53	81	83	B	Angella is a great student, she always asks great questions, she is attentive in class, and she works well with her classmates. She understands Physics very well, and she has good problem solving ability. I know she would like to improve her performance on tests, and I believe she will as she keeps practicing exercises, and striving to understand the conceptual part of Physics.	Mr. John

Computer Major	65	41	68	80	D	Jisca has an obvious passion for technology; She has impressed me this term by struggling with difficult projects. When we introduce new topics in class, she often could be found typing away on a computer, testing out the code. There are still the prevalent issues of study habits and theoretical knowledge. Jisca, to truly master the "science" part of computer science, you're going to need to put in more work, sweat and tears. But if programming is your passion, it should be fun work. Other teachers have mentioned a possible future for you in graphic or web design, which, if you're interested, could be a great avenue to explore. I hope you have an amazing senior six year and have some time in between studying to work on technology and design projects. You can do it!	Ms.Lyla
English	85	87	83	81	B	This term in English we read theUglies. Students completed a journal project, two group presentations and a final essay. Jisca has a natural ease with English, probably due to her time in England. Nevertheless, she struggles with written grammar and formal academics. Given her fluency, I think she could try for a foreign university. But she would also have to bring her grades up!	Ms.Jennie
Entrep	97	52	79	84	C	Jisca's grades have improved this term, and this has been attributed to a lot of hard work and help from her peers. She should continue with that spirit if she is to succeed.	Ms.Patience
General Paper	90	100	95	91	A	Jisca is a joy to have in th G.p class.She has greatly improved on her scores this term because her writing has improved.She has excellent analytical skills and she answered the exam perfectly well.She read the passage with understanding which enabled her to score an excellent mark.She is encouraged to maintain this skill. Biology	74	42	68	80	D	This is an average score. Even when the score shows little difference, much of the focus this term has been in areas of extended essay writing in biology, assignment writing and a special approach to question interpretation and presentation of relevant ideas of the subject in the most logical manner; an area she has shown great growth. she should base on this to have a wonderful next year. Special thanks are extended to her for her exhibition of the way she has learned to relate food tests to body systems and reactions. We hope this continues next year. However, it is important that Charity realizes the importance of prior preparation for exams and maintenance of a steady state of mind while doing tests. otherwise she can do better.	Mr.Benson
Chemistry	73	37	70	81	C	Besides performing poorly on tests requiring individual efforts like end of term exam, Charity has high levels of perseverance, courage and she is eager to learn. Thanks to the efforts she puts into class exercises and group work that her scores are maintained in 70's.	Mr.Allan
English	82	58	63	81	D	This term in English we read the dystopian YA novel, Ugliest. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Charity's work in English has been inconsistent. Sometimes she is very engaged and makes good contributions to class, but her exam preparation is lacking and sometimes her assignments are missing or late. Charity, I suggest you read over the break to boost your comprehension and make sure you keep up to date with your coursework in the future!	Ms.Jennie

General Paper	82	76	80	91	B	Charity is a very serious student though her grades have not improved. She asks questions until she understands. However she misinterpreted one number in the end of term exam which hurt her end of term scores. she needs to work on her comprehension and reading skills so that she can always read with understanding to improve her grades.	Ms.Penelope

Computer Minor	62	76	77	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Vestine is such a bright, hard working young student. She advocates well for herself by working well with others and asking for help when she needs it. Vestine, I hope you're proud of the work you've done and what you've learned this year. You are an amazing young woman!	Ms.Lyla
English	98	87	91	80	A	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Vestine is intrepid and hardworking. She lead her group in discussion of The Giver and seemed to really enjoy the novel. With attention to detail I think she could have done better on the final exam. Her essay showed great improvement in grammar. Vestine, you have really showed your strengths this year and I'm sure you will continue to succeed in English.	Ms.Jennie
Entrep	100	99	99	90	A	Vestine has shown continuous improvement in the tests and the actual class work. She is expected to maintain her positive attitude towards studies and her activeness in class activities.	Mr.Alain
General Paper	94	92	93	91	A	Vestines performance is promising and she is capable of registering more than this. However, she should double her efforts in class discussions and presentations.	Ms.Penelope
Physics	82	80	88	83	B	Vestine is an excellent Physics student, she works hard and is committed to mastering all the content in the Physics course. Her marks reflect the quality and consistency of her efforts. I hope she continues to be persistent and successful in her work.	Mr.John

Chemistry	84	82	90	82	A	This term, Annick has been settled and her concentration in class has been consistent. A reason why her scores have been balanced. Please, keep up the spirit for higher scores.	Ms.Justine
Computer Minor	55	86	84	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Annick doesn't speak much in class, so I didn't realize just how bright she was I started seeing her written work. Annick, you are such an analytical, intelligent young woman. I know you will do great things at GGAST!	Ms.Lyla
English	85	87	87	80	B	Annick has demonstrated great interest and need for improvement in English class. Though she did not score an "A" she did her best to improve in reading-comprehension, literary interpretation and in writing. Keep it up Annick and aim higher in 2014.	Mr.Paulin
Entrep	97	94	96	90	A	Annick is one of hard working learners in the class. She contributes a lot in class sessions and expected to maintain her promising performance.	Mr.Richard
General Paper	94	96	95	91	A	Annick is a serious hard working and very disciplined student. She seems to know what she wants from school and is trying the best way she can to achieve it. She should continue the good work she is doing and participate even more in class because this can only be better for her.	Ms.Penelope
Math	55	68	52	72	E	Annick is such a talented, outstanding and smart girl. The amount of time she put in this term to read the subject is such inversely proportional to the mark she obtained. I am sure this come to her as a shock and likewise. Her participation and contribution in class is always good save for this term when it slopped down which reduced her confidence hence her mark. She needs to get back to where she was. Annick has the ability to do far better than this.	Mr.Gonza
Physics	97	63	86	83	B	Annick has been working very hard in Physics this term as the topics and test questions have become increasingly more difficult. She is always giving her best, asking great questions, and working with her classmates to improve her understanding of Physics concepts. She has very strong problem solving skills that will improve as she keeps practicing exercises. I look forward to seeing her progress.	Mr.John

Biology	92	73	83	82	B	This is a good score; your presentation of work has a characteristic of scientific writing, an important component that is going to be needed through your study throughout. Question interpretation requires some slight adjustment and then you will have all it takes to continue to excel. We expect much more better things come in the next year. However, much greater attention is needed in your organizational skills ranging from presentations in class to supporting your arguments to be able to make a point clearly understood.	Ms.Justine
Computer Minor	52	57	70	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Dalillah is an excellent student in class; attentive, courageous and constantly asking good questions. Outside of class she is somewhat more disorganized. Biology	69	66	78	80	C	This is an average score. Even when the score shows little difference, much of the focus this term has been in areas of extended essay writing in biology, assignment writing and a special approach to question interpretation and presentation of relevant ideas of the subject in the most logical manner; an area she has shown great growth. she should base on this to have a wonderful next year. Special thanks are extended to her for her exhibition of the way she has learned to relate food tests to body systems and reactions. We hope this continues next year. Chemistry	72	60	71	82	C	While in class, Diella is always giving correct responses but when it comes to attempting an exam, her answers are inadequate and not well thought of. I do encourage her to proof read her responses in relation to the question more times.	Ms.Justine
Computer Minor	81	55	72	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Diella has been doing good group work, but when it comes to exams where she must struggle alone, the results are very low. Diella is very quiet in class and has not come for extra help, which is part of the issue. With a little more review and effort, I know Diella will master these important computer topics. As a side note, her project work has been good and her article was chosen specifically to be the first featured on the GGAST blog. Diella, keep trying and learning; there is a lot more to know about computers. Have a great break!	Ms.Lyla
English	72	66	71	80	C	Progressively, Diella has shown improvement in English. Her attention in class makes her a great component in English class. However Diella, your participation is still very low, that is why there is still big room for improvement next year.	Mr.Paulin
Entrep	89	94	92	90	A	Diella has exhibited active participation in almost all the class activities, discussions and presentations. She is encouraged to maintain this performance.	Mr.Richard
General Paper	92	97	95	91	A	Angella is a quiet but disciplined student.she is encouraged to participate in class activities to improve her grades and to benefit the entire class.	Ms.Penelope
Math	32	64	60	72	D	Diella is a quiet, humble and obedient student. She is always in class on time and hands in her work. Her notes are organized and well written. Diella needs to put in more effort in reading mathematics and calculating more mathematics questions. Asking more questions both in class and her peers would also help her a great deal. She has the ability.	Mr.Gonza
Physics	82	46	76	83	C	Diella has put forth a consistent effort in Physics this term. She has a strong ability in problem solving and understands physical concepts. I encourage her to ask more questions, and engage in more discussion with her classmates.	Mr.John

Chemistry	88	73	86	83	B	Tania still remains all round student in class, though her scores are not to that excellent, her attentiveness and eager to ask and know what she did not understand, in addition to being principled, makes her extra ordinary student in class.	Ms.Justine
Biology	80	72	77	82	C	This is a good score; your presentation of work has a characteristic of scientific writing, an important component that is going to be needed through your study throughout. Question interpretation requires some slight adjustment and then you will have all it takes to continue to excel. We expect much more better things come in the next year. A little item to attend to Tania, time management in exams!! work on this> Otherwise you have all it takes.	Ms.Justine
Computer Minor	58	64	76	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Tania's work this term has fluctuated; she did very well on the two initial exams, but struggled with the word project. She then did well on the Excel project, but underperformed on the final. I believe Tania has the natural capability be successful, but is not always as focused as she could be. Tania, you will get as much out of your education here as you put in to it; I know you are capable of amazing things. I'm looking forward to seeing you achieve them in your next two year here.	Ms.Lyla
English	85	72	72	80	C	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Tania's exam score is disconcerting, and her essay showed a lack of effort and attention. I was surprised by both of these results. She really needs to work harder next year.	Ms.Jennie
Entrep	91	89	91	90	A	Tania's performance is promising and she is capable of maintaining it. However, she should double her efforts in class discussions and presentations.	Mr.Alain
General Paper	92	96	94	91	A	Tania is an attentive student and very respectful. She was very hardworking towards the end of term and she needs to continue for better grades.	Ms.Penelope
Physics	92	65	85	83	B	Tania is an excellent Physics student. Her problem solving abilities and knowledge of physical concepts are top-notch. She works hard and helps her classmates. I hope to see her continue to succeed in Physics class.	Mr. John

Biology	81	73	86	80	B	This is an average score. Even when the score shows little difference, much of the focus this term has been in areas of extended essay writing in biology, assignment writing and a special approach to question interpretation and presentation of relevant ideas of the subject in the most logical manner; an area she has shown great growth. she should base on this to have a wonderful next year. Special thanks are extended to her for her exhibition of the way she has learned to relate food tests to body systems and reactions. We hope this continues next year. Raise your scores from B to an A because you have the potential to make it based on what you have displayed this term.	Mr.Benson
Chemistry	74	50	74	81	C	I do not doubt Vanessa's capacity to perform beyond 70's, but her teacher consultations and personal concentration in chemistry came in late (towards, the end of the term). I do advise her to always kick start the term with such practices if she is to have her grades improved.	Mr.Allan
English	82	90	85	81	B	This term in English we read the dystopian YA novel, Uglies. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Vanessa's group presentation on Uglies was a bit disorganized, and needed more paraphrasing, and less direct quotation. However, her essay was very well-written and well analysed. She also did very well on the final exam. Good job!	Ms.Jennie
Entrep	95	72	88	84	B	Vanessa, she has improved this time because of the changes in her study habits. Queen has for sure devoted enough time to her books and tried to manage her time well which seemed to be very hard previously and this explains why she has performed well this time round. Computer Major	83	82	84	80	B	Annick has been doing progressively better and better work this term. I believe that technology is her passion and talent, and she should pursue it as such. Her marks on the final exam are commendable and I was happy to see her and her partner struggling through the Tic Tac Toe project. Outside of class, Annick is one of the few students trying to explore what else they can do with technology and how they can apply their knowledge. Annick, it has been a pleasure teaching you for the past two years. Best of luck in senior six and beyond!	Ms.Lyla
Economics	96	56	89	81	B	Annick's grades have improved this term, and this has been attributed to a lot of hard work and help from her peers. She should continue with that spirit if she is to succeed.	Ms.Patience
English	87	87	87	81	B	This term in English we read the dystopian YA novel, Ugliers. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Annick's group Ugliers presentation seemed to lack preparation and thorough understanding of the articles. Her essay, however, was very strong. She is a good candidate for the TOEFL and SAT next year.	Ms.Jennie
Entrep	81	71	75	84	C	Annick's performance dropped this term. She can do much better if she works hard and efficiently. She will need to do this next year as she moves on to more challenging classes. This term we focused more on final accounts. This topic in accounting includes a lot of Math, which could explain the reasons why her mark dropped. She should do better next year.	Mr.Alain
General Paper	94	100	97	91	A	I am so impressed by Annick's active participation in class. She has good analytical skills and she read the passage with understanding. Chemistry	99	84	98	82	A	Noella has consistently scored the highest mark in the tests done. Thanks to her critical thinking and analysis skills especially in questions involving application of knowledge. Please, do as many exercises to maintain your grade.	Ms.Justine
Computer Minor	86	106	96	81	A	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Stella is a very bright young woman and one of the most analytical thinkers in her class. At times she seems relaxed or bored with the work; I would encourage her development as a leader and for the sake of her classmates, to instead engage with them and help them achieve her level of expertise. Stella, good work this year! Have a lovely holiday vacation!	Ms.Lyla

Biology	95	77	86	83	B	This is averagely fair but still low as requirement for enough foundation for new topics in grade 11. Much more research, writing and question interpretation needed for better results. keep in mind these three above and your grades will change.	Ms.Justine
Chemistry	96	80	94	82	A	Chantal has been scoring exceptionally well in tests and quizzes this term. Thanks to her alertness in class. However, she needs to emphasize on questions involving intermolecular forces, it's still challenging to her.	Ms.Justine
Computer Minor	54	77	80	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Chantal did amazing work this term; she is such a bright and hard-working student and has been much better about asking questions in class. It was a pleasure to have you in class this year and see how much you've learned. I hope you are proud of the work you've done and have a lovely holiday!	Ms.Lyla
English	72	72	73	80	C	Progressively, Chantal has shown improvement in English. Her participation in class, her self-confidence and attention in class make her a great component in English class. However Chantal, there is still big room for improvement next year.	Mr.Paulin
Entrep	96	88	95	90	A	Chantal, this is a good performance from Chantal, she is a well disciplined student in class and outside class and this explains why she has consistently been among the best students. i just want to thank Chantal because she has really struggled to improve on her English language which seemed to be a problem then. however i just want to encourage her that the only way to practice English is to get involved in class presentations and participation . i wish you a happy holiday as you prepare for S.5 2014	Mr.Samuel
General Paper	94	90	92	91	A	Chantal's points and explanations given in every exercise she does is thorough and well thought. You are encouraged to ask more questions and maintain your discussion group to maintain your scores.Otherwise you can perform even better than this.	Ms.Penelope
Math	92	82	88	72	B	Chantal was an incredibly focused and determined student. I also appreciate her dedication and contribution in assisting her peers if they were struggling with any math topics. I encourage Chantal to tutor her peers over the Holiday as I think in addition to helping someone learn, it would help Chantal with the mastery of topics which will benefit her in future math classes. Economics	96	56	80	81	B	enyse's performance in economics has improved but she still needs to put more effort especially in her exams and work. She needs to improve on her participation in class and the way she answers questions.	Ms.Patience
English	83	79	83	81	B	This term in English we read the dystopian YA novel, Ugliers. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Sylvie's group Ugliers presentation seemed to lack preparation. The group needed to read and analyse their articles more closely. Improved close reading and analysis would have helped Sylvie on the final exam as well.	Ms.Jennie
Entrep	81	72	75	84	C	Sylvie's performance did not improve this term. She can do much better if she works hard and efficiently. She will need to do this next year as she moves on to more challenging classes. This term we focused more on final accounts. This topic in accounting includes a lot of math, which could explain the reasons why her mark dropped. She should do better next year.	Mr.Alain
Geography	90	90	90	92	A	Sylvie's performance has improved greatly compared to the previous results. She is encouraged to double her efforts so as to be able to maintain this good performance.	Mr.Richard
General Paper	70	90	80	91	B	Sylvie is a humble and friendly student in class. She needs to participate more in class. She has the ability to perform better if she concentrates more. This is a fair result which should be improved upon.	Ms.Penelope
Math	36	42	42	63	F	Sylvie is a humble, social and disciplined student. She is too passive in my class and I think, many more concepts go understood because of her silence. She needs to participate more in class and discussions. More is expected from her if she reviews Analysis, Probability, Permutations and Combinations. She can do better.	Mr.Gonza

English	89	80	86	81	B	In English we read 'Uglies'. Students completed a journal project, two group presentations and a final essay. Janet's work is very inconsistent. I think she really needs to look inside herself and ask if she is doing her best, instead of looking for outside reasons. She did very well on the exams, but this seems incongruous with her overall efforts in and outside of class. Stay focused, and remember your education relies primarily on you.	Ms.Jennie
Entrep	98	59	82	84	B	Jannette's performance is promising, but she should work on time management. She is hard working and she likes consulting her peers and she should continue with that spirit for better grades	Ms.Patience
Geography	90	98	95	92	A	Umutoni's good performance is attributed to her active participation in class discussions. She is a student who approaches both the teacher and her fellow learners wherever she finds a challenge.	Mr.Richard
General Paper	85	96	91	91	A	Jeannette is a joy to have in the G.p class. She is one of the most active students in class and she forms a very positive element. She has excellent analytical skills and she answered the exam perfectly well. She read the passage with understanding which enabled her to score an excellent mark. She is encouraged to maintain this skill for her own performance and for the benefit of the entire class.	Ms.Penelope
Math	35	72	72	63	C	Jeannette is an encouraged and now, dedicated student. I have seen Jeannette's concentration take a different turn this last half of the term. She needs to get rid of the inconfidence and panic during examination time. She has the ability and the capacity to do mathematics and even score better grades. She needs to plan her time well and ask whenever she does not understand.	Mr.Gonza
Physics	79	80	83	85	B	Jeannettee you have given me joy this term. Am proud of you and thanks for your interest in physics. Work hard pays and you will make it to your best next year. Good luck and happy new year 2014.	Mr.Gerald

Computer Minor	49	73	79	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Nadia's performance overall has been good, but the newspaper project early in the term hurt her grade. The following Excel project she did about library books was creative and well presented. Overall, good work this year Nadia! Have a lovely break!	Ms.Lyla
English	76	87	82	80	B	Nadia has demonstrated great interest and need for improvement in English class. Though she did not score an "A" she did her best to improve in reading-comprehension, literary interpretation and in writing. Keep it up Nadia, and aim higher in 2014.	Mr.Paulin
Entrep	88	85	90	90	A	Nadia, she has greatly improved in terms of performance although her grades are still below my expectations. i encourage Nadia to try and balance academics with other activities because it may affect her academic performance if they given much attention than the books. i also encourage her to try and do some practice in accounting over the holidays such that she will be at the same level with the rest of the class at the beginning of S.5	Mr.Samuel
General Paper	94	90	92	91	A	Nadia is such a joy to have in the G.P class. Her performance is promising.She participates well and adds a very positive element to the class. I do feel at times that she can become distracted by her friends and would like to see her more focused when she returns next year.	Ms.Penelope
Math	90	96	92	72	A	Nadia is a very bright young woman who has an impressive dedication and ease with mathematics. I encourage Nadia to tutor her peers who are struggling learning mathematics topics as a way to not only help them, but also master the material herself. The topic mastery will hugely benefit Nadia in her future math classes as well as her endeavors beyong GGAST. Keep up the good work, Nadia!	Ms.Samantha
Physics	68	62	77	83	C	Nadia has put forth a consistent effort in Physics this term. She has strong problem solving skills and understands physical concepts very well. Her classmates benefit from her discussion and I hope she continues to work hard in class.	Mr.John

She has a good memory for definitions and is obviously working hard outside of class as well as inside of class. Much more practice, though, needs to be incorporated while she is reviewing. Sandrine, now that you have the computer science books, it's time to work "smarter" not "harder"; develop a weekly regimen with your friends in computer major where you do a few extra problems and then take them to the teacher to get the solutions. I promise that this will get you farther in your understanding of the subject than simply reading the notes. Chemistry	85	80	90	81	A	Irrespective of meeting new and challenging topic - organic chemistry with mechanisms to comprehend and apply, did not deter Yvette from an A grade. Thanks to her determination to excel and teacher consultations in class	Mr.Allan
English	92	82	87	81	B	This term in English we read the dystopian YA novel, Ugliers. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Yvette has put in a good effort this term. She did very thorough work in her journal, and did well on the final exam. Her essay didn't demonstrate the required critical thinking, however.	Ms.Jennie
Entrep	88	64	73	84	C	Yvette's performance dropped this term. She can do much better if she works hard and efficiently. She will need to do this next year as she moves on to more challenging classes. This term we focused more on final accounts. This topic in accounting includes a lot of Math, which could explain the reasons why her mark dropped. She should do better next year.	Mr.Alain

Christa continues to struggle with quizzes and tests; if she were a bit more serious in class and focused a bit more energy on taking notes and asking questions, she would have done better this year. Her group's practical work; especially the Excel project about Rwandan Pop Stars, was great. Christa, make sure you use all of your opportunities at GGAST; I know you will be successful!	Ms.Lyla
English	74	74	75	80	C	Merveille is one of the best English students for many reasons; her attention and interest among others. However, Merveille, you should have scored higher than this. All you need is the increase in your participation and self-confidence. Next year, find new strategies to improve your public speaking skills.	Mr.Paulin
Entrep	95	93	94	90	A	Merveille is a hard working student who has not only participated in class discussions but also extended a helping hand to fellow learners. Expected to maintain this performance.	Mr.Richard
General Paper	92	93	93	91	A	Merveille is capable of doing better than this. She should be more active in class discussions, presentations and consult fellow students and teachers for any assistance.	Ms.Penelope
Math	35	71	45	72	F	Merveille is a disciplined student. She has good interpersonal skills. Merveille is determined but sometimes she loses focus and concentrates less in class. She can do better if she restores her confidence, participates in class actively and where possible ask me for more explanations. This performance can be improved. Merveille has the potential to do better.	Mr.Gonza
Physics	89	78	89	83	B	Merveille has made significant improvement in Physics this term. She is always working hard, she is focused in class, and she is striving to understand physics deeply. She has improved her critical thinking skills, problem solving ability, and her explanation of conceptual topics. I hope she continues to make this progress as she enters S5. Keep up the great work! Even when her scores show a slight increase, much more has been realized in the areas mentioned above without forgetting a well thanked skill she has shown in question interpretation that shall act as great foundation for the final year as well as preparation for college. I hope she maintains the pace at which she is.	Mr.Benson
Chemistry	83	60	82	81	B	Throughout the whole year, Gloria has had bumps and dips in her chemistry scores, of which I could not figure out the reason. I do encourage her to evaluate herself when in holiday so as on her arrival for next term, we discuss the strategies for her excellence. Having once topped the whole chemistry class for two terms in s.4, I still acknowledge that she is capable of A grade termly.	Mr.Allan
English	96	90	95	81	A	This term in English we read the novel, Ugliers. Students completed a journal project, two group presentations and a final essay. On exams and written work, Gloria is one of the strongest students in the class. However, her in class participation and her journal submission left something to be desired. She should apply the same diligence and excellence to all of her academic work.	Ms.Jennie
Entrep	97	60	82	84	B	Gloria's performance is encouraging and promising but it has declined this term. She needs to work hard , be more committed to her work and try to be active in class and do a lot of consultations with her peers for better grades.	Ms.Patience

In the middle of the year, I feel that she started relaxing in programming class and was not taking as much ownership over mastering the material as she should have. In the other computer subjects, she is excelling. I know that she can easily recover the ground lost in programming this year. Honorine, I won't take it personally if programming is not your passion, but please review the basics for your own success on the exam next year. I know from talking with you and seeing your work that you will go on to do many wonderful things in whatever field you do choose. All the best!	Ms.Lyla

Computer Minor	79	82	80	81	B	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Marie Ange is a bright and diligent young woman. Her work this term in Computer Minor has been consistently good. I hope as she continues here at GGAST, all of the leadership potential I saw during TechKobwa manifests. She has much more to give her classes and the school, she just needs to start speaking up. You can do it Marie Ange! Have a great holiday vacation!	Ms. Lyla
English	92	85	86	80	B	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Ange sometimes misses the requirements or depth required in an assignment. Her essay showed that she needs to be more thorough and do more analysis and interpretation. Her argument and logic also need improvement.	Ms. Jennie
Entrep	90	92	94	90	A	Ange's impressive participation in class discussions and research presentations has enabled her to exhibit a good example to the entire class. She is academically good and capable of maintaining her performance.	Mr. Alain
General Paper	90	85	90	91	A	Nadege is a good student. She is active in class but her performance is not yet very good and she has the potential of performing better than this if she put more effort and do a lot of consultations.	Ms. Penelope
Physics	100	85	95	83	A	It is a pleasure to have such a hard-working, conscientious student like Marie Ange in class. She is attentive, enthusiastic, focused, and works well with others. Her marks have been excellent and reflect the effort she puts into her academics.	Mr. John

Computer Minor	54	89	76	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Nadege is a very hard working, earnest and bright young woman. Her marks this term were good, besides the Newspaper project. Her work this year has been commendable and she has been a pleasure to teach. Nadege, good work this year and have a great holiday break!	Ms.Lyla
English	88	96	92	80	A	In English class, where most of the coverage this year was Literature, Nadege has been an excellent student, both in reading, interpretation and writing. Your English skills and participation are great instruments even in other classes. Keep it up through out your studies Nadege!	Mr.Paulin
Entrep	100	91	98	90	A	Nadege, she is an exiting student because of her attitude towards her academic career, she is a student who knows what she wants and working so hard to achieve it, she is very collaborative with her colleagues as well as the teacher because on several occasions, she has advised me something which with pleasure i appreciate. continue with that spirit you will make it	Mr.Samuel
Geography	99	99	99	93	A	Mpore has ever since first term shown seriousness and this is reflected in her steady performance. She is a promising student.	Mr.Richard
General Paper	94	96	95	91	A	Nadege is an extremely hard working G.P student.Her performance is promising.She is committed to achieving the highest level of success. She is a good researcher.She is a mature, focused student that approaches all her work with great care. She is a pleasure to have in the General Paper class, keep up the great work !	Ms.Penelope
Math	95	97	96	72	A	Nadege truly thrived in math this year! Her effort, participation and success was consistent throughout the entire year. I also appreciate her peer tutoring and engagement to ensure that she was sharing her knowlege with her struggling peers. Thank you Nadege for your positive contributions and enjoy your Holiday. You deserve it!	Ms.Samantha
Physics	100	79	92	83	A	Nadege is a natural born leader, she works hard in class, and she is always focused and determined to succeed. She is making some small mistakes on tests, but these will be corrected in time. She has the energy and peristence to be very successful. Her work is always logical and clear, and she explains physics concepts in a very thorough manner. I hope she continues with this effort.	Mr.John

Chemistry	81	70	80	83	B	Jeannette has demonstrated high levels of courage and eager to learn. Her willingness to accept corrections makes Jeanette special student in chemistry.	Ms.Justine
Biology	90	76	83	82	B	This is a good score; your presentation of work has a characteristic of scientific writing, an important component that is going to be needed through your study throughout. Question interpretation requires some slight adjustment and then you will have all it takes to continue to excel. We expect much more better things come in the next year.	Ms.Justine
Computer Minor	78	55	70	81	C	This term in Computer Minor we focused primarily on practical work involving the MS Office Suite. Generally Jeanette has been doing well this term. The last few tests were difficult for her. So that she rises to her full potential at GGAST, I encourage her to speak up more and seek out help around exam time. Jeannette, good work this year. It was a pleasure to have you in class. Have a good holiday break.	Ms.Lyla
English	79	83	82	80	B	This term in English we explored literary concepts in a full length novel and wrote compare and contrast essays. Jeannette struggles in English. She needs to make sure she is paying attention and does the full amount required in an assignment. Through practice, her reading and analytical skills should improve.	Ms.Jennie
Entrep	98	99	98	90	A	Jennet is one of hard working learners in the class. She contributes a lot in class sessions and expected to maintain her promising performance.	Mr.Alain
General Paper	90	97	94	91	A	Jeannette is a well behaved learner, however, she should try to be more involved in class discussions, consult her teacher and fellow learners so that she can maintain her good performance.	Ms.Penelope
Physics	54	51	69	83	D	Jeannette has put forth a consistent effort in Physics this term. She has a strong ability in problem solving and understands physical concepts. I encourage her to ask more questions, and engage in more discussion with her classmates.	Mr. John

Biology	62	47	70	80	C	Your had working amid pressure has shown an ability to cope with the new challenges of the syllabus. Your writing which was the main focus this term has improved. Commitment to work slowly gives a hope that if you continue to seek guidance, a step by step performance should continue to show up. Special credit also goes with the way you have been able a relate practical work in foods with body activities. Keep it up.	Mr.Benson
Chemistry	76	40	72	81	C	Besides performing poorly on tests requiring individual efforts like end of term exam, Julienne has high levels of perseverance, courage and she is eager to learn. Thanks to the efforts she puts into class exercises and group discussion with Josine, a reason her overall term mark is high.	Mr.Allan
English	72	52	52	81	E	This term in English we read the dystopian YA novel, Uglies. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year.Julienne continues to struggle with English, but she has made progress this year. Julienne's group presentation on Uglies was a bit disorganized, and needed more paraphrasing, and less direct quotation.Her writing contains numerous errors, and she failed to turn in her essay. Julienne, be diligent and you will succeed.	Ms.Jennie
Entrep	60	50	66	84	D	Julienne, she is a well disciplined student in class although her participation in class is still low partially because of the English language problem, however she has straggled and tried her best to work on this and i slowly by slowly she will catchup with others. i encourage her to do more practice in English so as to improve on her critical thinking capacity	Mr.Samuel
General Pa-per	86	64	75	91	C	Julienne is a very good student, reserved in class but works very hard. She should participate more in class so that her grades can improve.	Ms.Penelope
Physics	83	65	92	85	A	Julienne is good but should put in more efforts to catch up with s4 and s5 work in order to be safe in s6	Mr.Erisa

Thanks to the efforts she puts into class exercises and group discussion with Kevine, a reason her overall term mark is high	Mr.Allan
English	82	86	87	81	B	This term in English we read the dystopian YA novel, Ugliers. Students completed a journal project, two group presentations and a final essay. The final exam score should indicate how ready they are to study for the TOEFL and SAT next year. Xandra wrote a strong clear essay. Her exam score showed good reading comprehension. I think she can consider studying for the TOEFL and SAT next year.	Ms.Jennie
Entrep	96	84	88	84	B	Xandra should be an A student, she has managed to keep her performance at a very good level this term even though we focused more on final accounts a topic in accounting that includes a lot of Math. She should continue the good work of improving her grades and be the A student she should be. Congratulations and keep improving Xandra	Mr.Alain
General Pa-per	87	96	92	91	A	Xandra is committed to achieving the highest level of success in G.P. Her marks reflect the effort, care, and diligence she puts in all her work. She thoroughly understands the content in G.P and has developed strong skills in problem solving.	Ms.Penelope
Math	51	91	84	63	B	Xandra is a motivated, deep-thinking and talented student. She is smart and organized in her work. Her attitude towards mathematics is an inspiration to teach her more next year. She minds and cares alot about her performance. No need to say that after her mid term scores, I have seen a dramatic change in her reading and concetration in class. This result is the true effort of what se put in. She has the ability to do better come next year. This is very good.	Mr.Gonza
Physics	85	30	78	85	C	Xandra is an extremely hard working, conscientious student. She is very strong and focused in problem solving in Physics, and her end of term exam shows she has mastered the topics we covered this term. I encourage her to keep up the great work!	Mr. John
