Chemistry	79	42	61	78	D	Jeanne's performance has been hampered by her working individually and much of the concepts were not fully comprehended. I do encourage her to follow up the group she chose for better grades.	Mr.Allan
English	65	65	73	83	C	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Jeanne is a dedicated student, although her performance has been below average. Particularly she needs to work on building her vocabulary knowledge and work on sentence structure. I hope that next term will provide her with the training she needs, although she will need to work on her vocabulary on her own.	Ms.Jennie

Computer Major	83	83	75	78	C	This term, Fleurissa has been so active and hardworking in class. She needs to improve in programming too to achieve the best. Congrats, Fleurissa!	Ms.Lyla
Economics	92	90	91	78	A	Fleurissa is an good student in economics, she likes helping and consulting with her peers. And her grades have been consistently improving. I have no doubt she will excel.	Ms.Patience
English	85	95	90	83	A	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Based on her performance on the final exam Fleurissa has a good grasp of essay writing, punctuation, and can understand the details of a lecture. She is often quiet in class and sometimes distracted by her friends. I think if she concentrated a little more she could really excel.	Ms.Jennie
Entrep	96	74	82	77	B	Fleurisa is a quiet student, who studies very hard but does not participate in class. She could improve her grade is she asked questions and was active when having her lesson.	Mr.Alain
General Paper	75	96	86	79	B	Fluerissa is a very active student in class and her performance is promising. Her participation in class discussions, if maintained, will enable her to do even better than this.	Ms.Penelope
Math	57	61	79	83	C	Fleurissa is a humble and disciplined student in class. She needs to put more effort in S.5 work, ask more questions in class and join groups that will help her learn.	Mr.Robert

Biology	53	66	64	71	D	Pascaline, the scores strike along average but show an improvement after midterm. Your performance in paper II was okay for the first numbers you did. A lot needs attention in paper I especially when you are to precisely answer questions; conclusive statements are needed. A relation between your observations in practical and body physiology is an area we shall help improve. Otherwise you can do better than this.	Mr.Benson
Chemistry	71	70	70	81	C	Pascaline has really struggled with Chemical equilibrium. Devote extra time during the holiday and concentrate on them to have your skills fully developed. Otherwise, your class contributions and participation is great.	Mr.Allan
Entrepreneurship	91	77	87	90	B	Pascaline's impressive participation in class discussions and research presentations has enabled her to exhibit a good example to the entire class. She is academically good and capable of maintaining her performance.	Mr.Samuel
General Paper	75	68	71	76	C	Unfortunately Pascaline misread one of the questions on the exam and that hurt her mark. She continues to be one of the most dedicated students, as she never misses doing her homework. Her writing is becoming clearer as well. She should participate more in class discussions, though. Biology	65	87	83	71	B	This has shown that you can bounce back and rise to the occasion. A lot has been done this term ranging from intensive use of the textbooks, consulting and seeking guidance till you became independent. Your answering skills have tremendously improved. Clear color identification is an area and relation to body physiology in practical is an area you have worked on this. Otherwise, you are destined to great heights.	Mr.Benson
Chemistry	96	92	83	81	B	Shadadi has had a great and promising term since S5; her participation; consultation and discussion have been excellent. However, she committed an error in practical exam which greatly lowered her final grade. All she needs is to be steady while in practical. Otherwise, she is an A product.	Mr.Allan
Entrepreneurship	98	97	98	90	A	Shadadi is a hard working student who has not only participated in class discussions but also extended a helping hand to fellow learners. Expected to maintain this performance.	Mr.Samuel
General Paper	84	77	80	76	B	Shadadi has the potential to be among the very best GP students, but she must push herself more. She is content to use her good mind to make logical points, but she must make the extra effort to master the information to provide relevant examples and data. Her homework research was consistently thorough this term which is a good sign, and she was a leader in class discussions.	Mr.Peter
Physics	79	82	85	79	B	Shadad is a wonderful physics student. Her performance is going up day and night because of her determination, self motivation, zeal and focus. My hopes in her are enormous. She is certainly going to make it.	Mr.Gerald

Entrepreneurship	87	83	87	90	B	Yvonne has greatly improved and this is attributed to her active involvement in class discussions and her consultative character. She should continue putting in more effort so as to improve on this performance.	Mr.Samuel
General Paper	98	78	86	76	B	Unfortunately Yvonne's exam was just average and that brought down her term mark. English	93	76	85	83	B	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Prossy is a strong English student in spite of some low grades. She has a very strong speaking ability and will make a great assistant head girl. She always seems to understand what is being discussed in class. Her essay writing still needs some work, and unfortunately she did not do very well on the exam. Approaches to questions and presentation of answers are areas we shall re-visit next term. Otherwise you are encouraged to keep trying harder.	Mr.Benson
Chemistry	89	31	60	78	D	Emerthe's final score is low because final exam required much explanation and individual assessment in which she was limited due to her low level of analysis skill. I encourage her to consult with her peers to ensure understanding and to participate more in class to continue developing her thinking capacity.	Mr.Allan
English	51	40	65	83	D	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. Chemistry	98	97	97	78	A	Yvonne has been exceptional this term her excellent scores in tests and quizzes. However, she remains reserved and not fully involved in the class room discussion. Please, always share your knowledge with others for effective content mastery.	Mr.Allan
English	84	100	91	83	A	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Yvonne did an outstanding job on the final exam. She is generally quiet in class, and I would like to see her show off her ability a little more! I can tell that she knows what is going on, so she needs to take a more active role in class. She was also missing some of her assignments in her notebook.	Ms.Jennie

Biology	81	87	86	80	B	Your performance is showing a steady rise both in scores and analysis and application of concepts to life in organisms. You are encouraged to maintain this spirit. You have shown a change in approach to questions after midterm, an indication that a lot has changed in ways you attempt questions. Keep it up.	Mr.Benson
Chemistry	89	76	82	78	B	Grace is good in analytical questions, but her content mastery is still low as seen by the shallow explanations given in the exam. This affected her over all term mark because of lower exam mark. Please, consult more and intensify your discussion to improve on content mastery.	Mr.Allan
English	74	73	80	83	B	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Grace is a hardworking and serious student. She participates often and is very earnest and sincere. She struggles with the vocabulary, especially the use of words.	Ms.Jennie
Entrep	89	64	80	77	B	Grace's good performance is attributed to her active participation in class discussions. She is a student who approaches both the teacher and her fellow learners whenever she finds a challenge.	Mr.Samuel
General Paper	65	96	81	79	B	Grace is a very active student in class and her performance is promising. Her participation in class discussions, if maintained, will enable her to do even better than this. She shown a great improvement in end of term exams. She should not relax.	Ms.Penelope

Chemistry	92	82	87	78	B	Yvette's points and explanations given in every exercise she does is thorough and well thought. However, she needs to work on writing and balancing chemical equations which jeopardized her exam score.	Mr.Allan
English	89	69	85	83	B	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Yvette is generally quiet in class. She completed her assignments thoroughly and has done well on the vocabulary quizzes. Her score on the final exam was low. She needs to assess what she thinks went wrong and how she can improve in the future.	Ms.Jennie
Entrep	78	76	78	77	C	Yvette works hard in class but keeps to herself most of the time and does not ask questions. She is a good student and can do much better if she participated more and asked more questions.	Mr.Alain
General Paper	72	88	80	79	B	Yvette is very active in class. Her performance in is promising. Her participation in class discussions, if maintained, will enable her to do even better than this.	Ms.Penelope
Math	65	65	77	83	C	Yvette is a humble, active and friendly student in class. Yvette really works hard and participates in class. She needs to put more effort in S.4 work. This is a fair grade.	Mr.Robert
Physics	78	64	77	68	C	Yvette is an extremely hard working Physics student. She is committed to achieving the highest level of success. She is a mature, focused student that approaches all her work with great care. She is a pleasure to have in class, keep up the great work!	Mr.John

English	89	74	85	83	B	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Bernice is a consistent student. She has done well on the vocabulary quizzes and the homework. Her essay was a good start, but she needs to work on elaborating more. The final exam was challenging for her, particularly in the writing sections that we will continue to work on.	Ms.Jennie
Entrep	74	74	74	77	C	Bernice's performance is good and promising should continue working hard and consulting her peers in order to perform better.	Ms.Patience
Geography	90	84	90	90	A	Bernice's performance is encouraging. She is encouraged to maintain it. She has contributed a lot in assisting fellow weak learners in her class.	Mr.Richard
General Pa-per	75	96	86	79	B	Bernice's performance is promising. Her participation in class discussions, if maintained, will enable enable her to do even better than this.	Ms.Penelope
Math	75	68	85	83	B	Aimee is a humble and active student. She needs to work in groups and participate more in class for higher grades. She is a promising student and she needs to use her holiday well.	Mr.Robert
Physics	65	89	75	68	C	Bernice is a very active, organized and always willing to learn physics. She has greatly improved and has more interest in the subject. She now freely expresses her views in class. Please continue with the spirit.	Mr.Gerald

SUBJECT	MTM	TEM	ETM	AVG	LETTER	COMMENT	TEACHER
Biology	67	77	80	71	B	Hope, your scores show great promise. You have clearly shown that you can make it so very well. Your choice of questions to attempt was perfect, approach and attempts are close to final adjustment. A clear relation of observation and physiology of body systems in practical is an area we shall guide you in. Also, to work on multiple choices; weigh options given in the question and you will be there. Otherwise, keep moving and you will be there!	Mr.Benson
Chemistry	79	70	70	81	C	Hope has displayed organic chemistry content throughout the term which is continuously improving her scores termly. However, emphasize much on inorganic chemistry to maximize the scores at the National exam.	Mr.Allan
Entrepreneurship	95	75	87	90	B	Hope should try to consult her teacher and work hand in hand with her fellow students, so that she can be able to improve on her performance. She should be more active in class.	Mr.Samuel
General Paper	78	80	79	76	C	Hope wrote a good exam and she had a better performance in the second half. Her homework research has been just average, whereas last year her work set the standard, and her class participation has been less. But the exam is a positive indicator.	Mr.Peter
Physics	62	69	71	79	C	Hope is the class captain of PCB -physics class because of her great hard work, determination and self confidence. She is self motivated and values the subject a lot. Hard work pays and you'll make it.	Mr.Gerald

Computer Major	73	88	77	75	C	Computer class has always been interesting to Tinah. However, this term has been tricky for her and it has opened her mind to think critically. She has mastered most of the subject content, but needs to come for more complex questions to practice on after class.	Ms.Clare
Entrepreneurship	87	92	91	90	A	Tinah has greatly improved and this is attributed to her active involvement in class discussions and her consultative character. She should continue putting in more effort so as to maintain this performance.	Mr.Samuel
General Paper	90	71	79	76	C	Tinah can do better in GP. Her homework is always done, but it is not as thorough as it can and should be, nor does she contribute much to class discussions. Her exam was also more superficial than was required. If she becomes more thorough, she would both increase her marks and develop her academic skills more quickly. It's clear she can be a very good student.	Mr.Peter
Math	47	51	60	67	D	Tinah is very active and always consults but she is not consistent with her work. Computer Major	82	70	79	75	C	Witness started off well in S.4 mastering all the contents. However, she did not master Networking and Operating System content in S.5. With the S.6 content, most of the it is mastered. Witness needs more practicing with different questions and needs to come in for consultation from her colleagues and the teacher especially after days she misses a class.	Ms.Clare
Entrepreneurship	92	79	86	90	B	Witness is one of the hardest working students, she does her work on time and assists other learners in whatever she knows best. Keep this spirit and maintain your performance.	Mr.Samuel
General Paper	84	68	75	76	C	Unfortunately Witness misunderstood 1 question on the exam and that has hurt her term mark. She had improved had improved in the second half of the term. Her homework was more thorough, her analysis was stronger, and she participated in class regularly. This effort will help her develop her academic skills quickly.	Mr.Peter
Math	55	41	70	67	C	Witness changed and became serious towards the end of term after talking to her. She even changed the place in class. I think she will perform if she does at east five numbers a day, consult and involve her self in more discussions because there is no more time, its now.	Mr.Erisa
Physics	78	81	83	79	B	Witness is not only an extraordinarily good Physics student but even very organized and exhibits great leadership skills as the class captain. She is cooperative and self motivated. She will make it.	Mr.Gerald

Biology	89	97	96	80	A	These are very good scores over all. Working on assignments was well accomplished. A few things like illustrations when answering are areas you will work on next term. Otherwise you have all it takes to maintain good scores.	Mr.Benson
Chemistry	98	89	93	78	A	Gloria still remains all round student in class, her attentiveness and eager to ask and know what she did not understand, in addition to being principled, makes her extra ordinary student in class.	Mr.Allan
English	100	92	96	83	A	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Gloria is a dedicated student and she asks good questions in class. She gets help when she needs it. She performed exceptionally well on the midterm (%100) but didn't do as well on the final.	Ms.Jennie

Entrepreneurship	87	100	95	93	A	This performance is a true reflection of Nadege. She is a well disciplined student, responsible, and very active in classroom and even outside classroom. She has very good hand writing and fluency in English. Just keep the candle burning please. I am impressed by your performance.	Mr.Samuel
Geography	98	97	98	93	A	Nadege's good performance is attributed to her activeness in class and group activities. She should continue consulting her teacher and fellow learners so as to be able to maintain her good performance.	Mr.Richard
General Paper	90	98	94	91	A	Nadege is an active student in class. Her performance is promising. Her participation in class discussions, if maintained, will enable her to do even better. Do not relax.	Ms.Penelope
Math	86	90	89	87	B	Nadege is a real pleasure to have in class. She is very focused and engaged and actively participates. Thank you Nadege, for your hard work in my class!	Ms.Samantha
Physics	82	99	95	80	A	Nadege's terrific performance on the end of term exam reflects her persistent effort and commitment to mastering the topics of Physics this term. She has shown tremendous ability in problem solving and understanding physical concepts. Keep up the great work!	Mr.John

Chemistry	66	78	76	86	C	Jeannette is a good student. She needs to increase on her participation in class, consult her teacher and students to master the content. But, I know she is able to make it.	Ms. Justine
Biology	91	84	87	87	B	Jeannette is a well behaved learner. She should try to be more involved in class discussions, and utilize the presence of her teachers for more assistance.	Ms. Justine
Computer Minor	N/A	54	64	81	D	Jeannette came to GGAST with less computer experience than some of the other girls. She has been doing her work and attending extra classes, but she is very quiet. She has had issues with submitting assignments and needs to push harder to get these resolved. I encourage her to seek out myself or friends in the class that can help her review some of the key concepts and skills to keep up with the coursework.	Ms. Lyla
English	N/A	93	90	86	A	This term in English we started with a unit on identity, exploring students' identities through poetry and a class dictionary project. We also studied note-taking in order to prepare students for their senior high school classes. Jeannette is quiet but hardworking. She is doing very well, but I would like to hear more from her in class.	Ms. Jennie
Entrepreneurship	96	89	91	93	A	Jeannette is a good student and should continue doing what she did this term.	Mr. Alain
General Paper	98	92	95	91	A	Jeanette's performance is promising. Her participation in class discussions, if maintained, will enable her to do even better than this. Do not relax.	Ms. Penelope
Physics	39	66	79	80	C	Jeannette has worked very hard this term to improve her marks in Physics. Her end of term exam reflected significant improvement in her understanding of physical concepts. I encourage her to keep working hard and ask questions when the material is unclear.	Mr. John

Biology	57	55	55	80	E	Julienne, the scores float around the same position; an indication that not much is being added to the way you commit yourself to the occasion. A change in the approach to revision to open book class work might be of good help. Try it out.	Mr.Benson
Chemistry	94	48	71	78	C	Julienne's final score is low because final exam required much explanation and individual expression in she was limited due to her low English level. I encourage her to consult her peers to ensure content understanding and to participate more in class to continue developing her language skills.	Mr.Allan
English	65	74	79	83	C	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Julienne really struggles with English. I suggest she keep her own vocabulary list of new words, read more, and try to get more listening practice.	Ms.Jennie
Entrep	80	75	81	77	B	Julienne's performance is promising. She is expected to maintain this performance. She is very active in group work activities, and she is encouraged to keep it up.	Mr.Samuel
General Paper	60	40	50	79	E	Julienne is a very active student in class and her performance is promising. Her participation in class discussions, if maintained, will enable her to do even better than this.	Ms.Penelope
Physics	38	22	50	68	E	Julienne is active in class but she needs to consult more and make use of text books to improve next term.	Mr.Erisa

SUBJECT	MTM	TEM	ETM	AVG	LETTER	COMMENT	TEACHER
Chemistry	84	70	77	78	C	Xandra is good in analytical questions, but her explanations are not thorough an indication of low content mastery. This affected her over all term mark. Please, consult with me more and intensify your discussion to improve on content mastery.	Mr.Allan
English	78	79	82	83	B	This term in S5 English we have focused on outlining, identifying the main idea and details of written and spoken passages, and analyzing literature in the form of homework assignments, a presentation and a final essay. We have also continued to build vocabulary and improve listening comprehension. Xandra is an active participant in English class. She often knows the answer and seems to pay attention. Her writing has some organization, but she needs to work on developing it a bit more.	Ms.Jennie
Entrep	94	76	82	77	B	Xandra is a quiet student who should be able to do better than how she did this term. She should be participating more in class and asking questions when she does not understand what is being taught	Mr.Alain
General Paper	82	96	89	79	B	Xandra needs to put in more effort by improving on her participation in class discussions and consultation.	Ms.Penelope
Math	82	77	89	83	B	Xandra is a humble, hard working, open and friendly student. She needs to put more effort in S.4 work. She has the ability to perform better if she concentrates more. This is a good result.	Mr.Robert
Physics	86	39	70	68	C	Xandra is a very bright, hard working, and persistent Physics student. Her overall performance on examinations this term was excellent. Her exam mark does not reflect her true ability.	Mr. John
